Question 3

"~~~~~"

Some of the elements in dance that I saw in the dance was the ~~like~~ smooth sharp pattern. This showed out to me the most out of all because it had such a big play in the piece. It was something very interesting to watch. I feel that maybe the sharpness in the dance was suppose to stand for maybe the mosaic part of the dance. There was also lots of locomotor movement that I saw. It was something you wouldn't see in a usual regular dance. It was something very different that you would only see in a dance like this.

I HAVE NO IDEA what happens in this dance.

I'm not sure you watched a dance.

There are no details here.

There are no answers to #3 either.
