MM	no	yes	no	I like the choreo but if you point your toes the moves wont fall so hard.
TG	no	yes	no	The dance was entertaining but I wanted it to be more fluid

I like the beginning where Brooke's group has a circle and they push out of it. I think with more people it would have a kaleidoscope effect that would be really cool. It could also add definition to the notable amount of circles in the dance.
